Section 2 – Equipment Specifications

2.1 Table

Sit down: 28" from floor to top of table.

Stand-up: 40" from floor to top of table.

All other specifications are identical for both sit down and stand-up table tops.

2.2 Table top

36" across and 26" deep.

Legs will be 28" minimum inside leg and 18" minimum from leg to leg.

2.3 Elbow Pads

7"x 7" square shape. 2" thick, made of heavy high quality foam material, covered with a vinyl/rexin type cover. The foam and covering can be attached to a 1/8" metal sheet, 7"x 7" with two threaded bolts 1/4" diameter x 1 3/4" long, welded to the bottom to be able and attach your elbow pads to the table top.

A line, either painted, upholstered or taped from hand grip to hand grip to establish center of the table will always be used at WAF tournaments.

2.4 Touch Pads

10" long x 4" high. Made of good quality touch pad.

2.5 Placement

Elbow pads should be set 2" from their respective edge.

They should overlap each other by 1/2 to the right of center for a right arm table and overlap each other by 1/2 to the left of center for a left arm table.

2.6 Touch Pads

Should be on an angle, 5" out from the inside corner of the elbow pad to the inside corner of the pad and 1/2" from its respective edge measured to the outside corner of the pad. Running at an angle towards the hand peg it should measure 2 3/4" from the hand peg to the outside corner of the touch pad.

If it's for a right arm table, these measurements should be made on the left side of the elbow pad and reversed if it's a left arm table.

2.7 Hand Pegs

Should be placed midway at 13" on each edge of the table, 1" in from the edge.

The peg itself should be 1" in diameter and 6" high from the table top.

2.8 Seats

They should be 18" square and 18" from floor surface to seat top surface. The front edge should be exactly in line with the table edge. The seat and table should be secured to a platform or floor.

Both competitors should sit on seats at 28" high tables. (2013)

2.9 Material

The best material to use is square tubing although tubular steel, flat iron or angle iron may be used, but not more than 2" in diameters or width. The table top and seat top are normally made of 3/4" thick plywood.

The table top and seat may have a thin sheet of foam, covered with vinyl/rexin type material to add a comfortable finished look. No plexi-glass or reflective tape is to be used on the table top or seats.

2.10 Chalk Stand

A stand suitable for chalk/rosin or stickum should be placed on either side of the table but at a suitable distance away so as not to bother referees or minor officials with the dust floating in the air or with competitors preparing for a match.

2.11 Staging

If raised staging is used, hosts are responsible for supplying or installing protective railing around the perimeter, to prevent competitors from accidentally falling off.

Stages should also be planned with the intent to keep non-participants away from the competition table and draw sheet table.

2.12 Riser Platforms

Riser platforms can be used by competitors who have a height disadvantage. Riser platforms can be used in combination with platform shoes or multiple platforms, to raise the competitor, to at least bring their waist to the table top. Competitors can use a personal riser with prior permission of the Head Referee before the start of contest.

For consistency and ease of handling reasons, riser platforms will be built of 1/2" thick plywood, 4" high x 36" wide x 32" deep. They will be notched at the top part, as to fit the table legs on each their respective side, to prevent them from slipping out during competition. Approximately 3" from the top, the notches, on either side will be located.

A hand slot will be cut in the center to facilitate the removal and installation of the riser platform.

2.13 Straps

When used, they will be of a standard 1" style with a plastic or metal buckle and not of velcro. The straps used by WAF will be 1" inch wide.

2.14 Uniforms

2.14.1 All participants, including athletes and officials, must be familiar with and adhere to the WAF costume code. Each country must be identifiable and each competitor identifiable to its country.

- 5.2.3 Anyone with long hair will have to have their hair restrained in some fashion. Head bands are permitted but not hats.
- 5.2.4 Referees are not there to use force or wrestle with you. A referee will lightly touch competitors hands to see that they are properly aligned, wrists straight and arm centered to the table top.

- 5.2.8 You can only pin your opponent on the winning side of the table

5.3 Setting up / Start of Match

Free hand will grip the hand peg provided at the table edge. This arm may or may not touch the table top. Finger nails should be trimmed so as not to injure your opponent. Stickum/rosin/chalk are permitted.
- 5.3.2 Back pressure to the extent that it pulls your opponents arm across the marked center of the table will not be allowed. This infraction will be deemed the same as a false start.
- 5.2.3 Shoulders will be kept square to the table. They may slope to either side before the start.
- 5.2.4 There will be a hand width between the shoulder and forearm of each competitor as well as between the chin and hand prior to the start.

Section 6 – Universal Worlds

- Each competitor should know the following words.

Ready Go	Knuckles	Elbow down	Wrist	Shoulders
Stop	Warning	Winner	Over	Referee Grip
Back	Thumb Down	Don't move	Center	Coincidental
Grip	Foul	Under	Strap	Dangerous Position

- The word SHOULDER will be used to describe a dangerous position.

Section 7 – Warnings

- 7.1 Any early movement with shoulders, arm, hand or fingers will be a **warning** unless competitors are in a referee's grip. Then it would be a foul.
- 7.2 If one competitor is causing a delay "locking up" the referee will give the offender a **warning**.
- 7.3 Letting go of the peg will result in a **warning** being called to the offender, without stopping the match. If an advantage is gained prior to re-gripping the peg, the match will be stopped and the offender will be given a **foul**. Contact with the peg must be above the table. One armed or one hand persons do not have to grip the peg.

Section 8 – Fouls

Note: *Two warnings will equal one foul.
Two fouls, competitor will lose that particular match.*

8.1 Fouls

- 8.1.1 If competitors fail to come to the table in the **30 seconds** allotted they will be given a loss. Their name will be dropped to its proper slot, the same as a loss in an actual bout. If they already have a loss they would drop out of the tournament for that particular weight class. (2013)
- 8.1.2 Competitor's shoulder must not cross the "centerline" between pegs during competition. This will be a **FOUL**.
- 8.1.3 Competitor cannot touch any part of their body such as chin, shoulder or head. A foul will be given.
- 8.1.4 Intentionally pushing of your own hand into an opponents shoulder will result in you getting a **FOUL**.
- 8.1.5 When a competitor starts to put themselves in a "dangerous position", the referee will caution the competitor loudly so that the competitor understands the caution. Referee will instruct the competitor to face their competitive arm, so as to keep the hand, arm and shoulder in a straight line. Competitors must never force their shoulder inwards, ahead of their arm or hand, towards the table.
- 8.1.6 Neutral position is from the starting position to 2/3 of the way down to the pad on the losing side of the table.
- 8.1.7 30 second rest is permitted after a **FOUL**.
- 8.1.8 Foul language, poor sportsmanship or abuse towards an official will result in a **FOUL**. If it continues, competitor or official will be barred from the tournament.
- 8.1.9 Any foul given when a competitor is more than 2/3 of the way down to the pad is a loss

8.2 Referee Grip

- 8.2.1 Competitors have **30 seconds** to “Grip Up”. If in that time, they have not gripped up, they will be given a “referee’s grip”. A referees’ grip consists of the following procedure. (2013)
- 8.2.2 Competitors’ hands are placed palm to palm by the referee, the thumbs are pushed down by the referee, the fingers are wrapped by the referee, first one competitor, then the other. As they are wrapped referee asks competitor if he/she wants their thumb covered or not. Thumb knuckles will be showing, forefingers level, wrists straight and arms centered. Competitors are not to move from this set up.
- 8.2.3 Examples of movement are fingers re-gripping, back pressure, bending wrists, early start or elbow lifting off the pad.
- 8.2.4 **Any** movement by **any** competitor will result in a **foul** being given against the one that moves.

8.3 Elbow Fouls

- 8.3.1 A **foul** will be given when a competitor’s elbow loses contact with the elbow pad. A competitor is considered to lose contact with the pad when
- 8.3.2 The elbow lifts vertically off the pad, no matter how insignificant, as long as there is clearance between the pad and the elbow. It is not considered an elbow **foul** if the elbow has lifted off the pad, but the competitor still has contact with the elbow pad with their triceps or their forearm.
- 8.3.3 An elbow **foul** will be called if the competitor is riding on their triceps or forearms and the elbow extends beyond any side of the elbow pad.
- 8.3.4 Any foul that occurs simultaneously with a foul by your opponent will be considered coincidental, the march will be stopped and restarted and no foul will be given.

8.4 Slip Outs

The referee will call one foul for “causing a slip out” when:

- 8.4.1 You lift your fingers off your opponent’s hand prior to a slippage
- 8.4.2 You close your fingers as to make a fist inside your opponent’s hand
- 8.4.3 You’re in break wrist position and you pull your fingers inside your opponents hand, therefore you are unable to hold your grip.

8.5 Straps

- 8.5.1 Straps will be used when any match ends by way of a slip-out **not resulting in a foul**. A slip-out occurs when both competitors have lost complete contact with one another. The official must be certain of the circumstances preceding the actual slip out before calling a foul. If the official is uncertain as to who caused the slippage or it was caused by the actions of both competitors, then straps will be used and no foul will be given.
- 8.5.2 When straps are employed, the officials will ask competitors to place their elbows to the back of their respective elbow pads, place their hands palm to palm, fingers extended and thumbs up.

Opposite hand will grip hand peg. In this position the strap can be quickly installed. Only the official can adjust the strap. Competitors may ask to loosen it or move it if it's uncomfortable. The strap cannot be lower than 1" below the natural wrist line.

- 8.5.3** After the strap is installed, competitors may take their grip and place their elbow to their choice of position.
- 8.5.4** If a competitor intentionally slips out during the match in a losing position (losing position is determined by being more than 2/3 rd of the way down to the pin pad), the competitor will lose that particular match. Any intentional slip is an automatic **FOUL**.
